CCC DISPATCHED FOR DELTA LEVEE PROTECTION

The California Conservation Corps has five crews -- 72 corpsmembers -- working Friday morning in response to Thursday's levee breach on Bacon Island Road at Jones Tract.

The CCC crews, dispatched by the San Joaquin County Office of Emergency Services, are working under the direction of the state Department of Water Resources. They are placing sandbags and heavy plastic on the Trapper Slough levee, to raise the levee two to three feet. The Trapper Slough levee runs adjacent to Highway 4.

The crews working Friday are from CCC centers in Stockton, Auburn and Fresno. They are expected to continue to work for the next several days.

Additional crews are available to respond as needed.
